Mountain View, California

Attention: Mr. Roger Higdon

Subject: Fairchild Blating Facility - 644 National Avenue  
Job No. 66112

Gentlemen:

The transmittal sent to Mr. MacPhatters on March 6, 1967, explained that the treatment of the acid waste is not being done by this office. It is being done by the Udyrite Corporation in Detroit, Michigan. This office is only providing the underground tank, as shown on Drawing M-4. We will be glad to send you prints as soon as they are received in this office. To date you have the only print we have received.

Four sets of plumbing, sprinkler, heating and ventilating specifications and drawings are being delivered to Mr. James Ault by Mr. Kenneth Sletten, March 15, 1967.

If you have any further questions, please do not hesitate to call on us.

Very truly yours,

SIMPSON, STRATTA AND ASSOCIATES

Rodney Feildesman
